Tulip School Photography

We would like to introduce you to Tulip Photography, the school photographers with passion, energy and a fresh modern approach. Our pictures are about high quality and contemporary style but also at school photography prices. We go to great lengths to provide the best quality portraits at affordable prices, so parents will receive great value for money.

We can shoot formal, informal or a mixture of both; the choice is yours. We also offer a modern alternative to the formal class portrait, which has proved to be very popular with parents, and costs from as little as £9.50 for a mounted 9" x 6" print.

We hope you like our style and approach to school photography. Please contact us on 0845 838 1778 for more information, we look forward to showing you just how exciting and rewarding school photography can be.

What's in it for the school?

Better pictures, which means happier parents. You will receive more commission because more pictures are ordered, and friendly and efficient customer service. **Our commission rates are very generous - 25% for individual portraits, 20% for class portraits and 15% for family portrait days (commission payable on sales after VAT).**

We also offer further benefits such as complimentary staff photos, on-line ordering for parents, and a small but efficient team of staff available to help. We handle as much of the process as you want us to - we know you have enough to do already!
